

Recommendation Letter

14 July 2026

To Whom It May Concern,

I am pleased to write this recommendation letter for my student, **Yara Alsiamy**, whom I taught in the *Introduction to Cybersecurity* and *Optimization and Constraint Programming* courses. During both courses, she demonstrated strong academic performance, commitment, and a clear understanding of the course material. She successfully earned an A+ grade in both courses, which reflects her hard work, dedication, and ability to meet high academic standards.

Throughout the semester, Yara showed responsibility and a positive attitude toward learning. She was attentive and consistent in completing course requirements. Her performance demonstrated her ability to apply concepts effectively. Based on my experience teaching her, I believe she has the skills needed to succeed in future academic or professional opportunities.

I believe **Yara Alsiamy** will be a valuable asset to any academic program or professional organization she joins.

Sincerely,

Dr. Daren Fadolkarim

Assistant Professor

Department of Computer Science & Artificial Intelligence

College of Computing

Umm Al-Qura University

Makkah, Saudi Arabia
