To Whom It May Concern

As an Assistant Professor in the Department of Computer Science and Artificial Intelligence at Umm Al-Qura University, it is my distinct pleasure to write this letter of recommendation for **Yara Ismail Alsiamy**. I came to know her during the second semester of the 2025/1447 academic year while teaching her the Computer vision Course. Throughout the semester, she consistently demonstrated exceptional academic prowess, technical capability, and intellectual curiosity, ultimately earning one of the highest marks in the class.

Beyond her outstanding individual academic performance, **Yara** distinguished herself as a natural leader and a highly collaborative team player. In our rigorous course projects and group challenges, she routinely took the initiative to organize tasks, bridge technical gaps, and ensure her team met every milestone with precision. Her ability to communicate complex technical concepts clearly and maintain a cooperative team dynamic was instrumental to her group's collective success.

Yara possesses a remarkable capacity for critical thinking and problem-solving. When faced with complex assignments or unexpected challenges, she approached them with a structured, analytical mindset and a strong determination to succeed. Her technical skills, combined with her disciplined work ethic, make her highly adaptable and capable of excelling in any demanding academic or professional environment.

I have no doubt that **Yara** will bring the same dedication, brilliance, and collaborative spirit to your institution or organization that she brought to my class. She has my highest recommendation for her future endeavors. Please feel free to contact me if you require any further information.

Sincerely,

Dr. Seereen Noorwali
Computer Science and Artificial
Intelligent Department
